Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 February 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gennaro US 6,317,834 in view of Subbiah US 6,035,403.

As per claims 1-3 Gennaro teaches a biometric access verification system, (Col 4 lines 54-56): Gennaro teaches obtaining and storing a biometric profile for a user to be authorized, (Col 5 lines 9-16). Gennaro teaches a biometric acquisition device for a user to submit a biometric sample, (Col 6 lines 14-20). Gennaro teaches obtaining a current biometric sample from an individual attempting to gain access, (Col 7 lines 38-41).

Gennaro teaches comparing the current biometric sample to a previously stored biometric sample and allowing access if the user is authorized (Col 7 lines 42-50). Gennaro does not explicitly teach a biometric acquisition device.

Subbiah teaches using a computer mouse to capture fingerprint biometrics (Col 4 lines 60-65).

It would have been obvious to one of ordinary skill in the art to use the mouse of Subbiah with the biometric system of Gennaro, because the system needs a biometric acquisition device, and Subbiahs device is very low cost (Col 4 line 65).

As per claim 4 Gennaro teaches denying access if the user is not authorized, (Col 8 lines 37-43).

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Gennaro US 6,317,834 in view of Subbiah US 6,035,403 in view of Canestaro US 6,748,540

As per claim 5, the Gennaro-Subbiah combination teaches biometric acquisition and storage, (Col 4 lines 45-56).

The Gennaro-Subbiah combination does not disclose reporting unauthorized access attempts.

Canestaro teaches reporting a failed access attempts to an administrator for security reasons, (Col 2 lines 12-18, Col 7 lines 7-10). It would be obvious to one of ordinary skill in the art to add Canestaro's reporting failed access attempts with Gennaro's biometric access system because it would be advantageous to have an improved method for monitoring unauthorized access attempts to a computer system for administrators, (Col 2 lines 1-10 Canestaro).

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
